# Acacia Technologies Acquires Rights to Patent Portfolio for Communication Resource Monitoring

Friday June 1, 6:00 am ET

NEWPORT BEACH, Calif.--(BUSINESS WIRE)--Acacia Research Corporation (Nasdaq:[ACTG - News](#); Nasdaq:[CBMX - News](#)) announced today that Acacia Patent Acquisition Corporation, a wholly owned subsidiary that is part of the Acacia Technologies group, a leader in technology licensing, has acquired rights to a patent portfolio relating to communication resource monitoring.

"Acacia continues to grow its base of future revenues by adding new patent portfolios," commented Paul Ryan, Acacia Chairman and CEO. "As our licensing success grows, more companies are selecting us as their partner for the licensing of their patented technologies," concluded Mr. Ryan.

This patented technology generally relates to systems and methods that track and report network communications resource activity. This technology may be used in enterprise software systems to give management visibility into computer and network resource utilization and to facilitate IT operations expense chargebacks.

## ABOUT ACACIA RESEARCH CORPORATION

Acacia Research Corporation comprises two operating groups, Acacia Technologies group and CombiMatrix group.

The Acacia Technologies group develops, acquires, and licenses patented technologies. Acacia controls 70 patent portfolios covering technologies used in a wide variety of industries including audio/video enhancement & synchronization, broadcast data retrieval, computer memory cache coherency, credit card fraud protection, database management, data encryption & product activation, digital media transmission (DMT®), digital video production, dynamic manufacturing modeling, enhanced Internet navigation, image resolution enhancement, interactive data sharing, interactive television, laptop docking station connectivity, microprocessor enhancement, multi-dimensional bar codes, resource scheduling, spreadsheet automation, and user activated Internet advertising.

The CombiMatrix group is developing a platform technology to rapidly produce customizable arrays, which are semiconductor-based tools for use in identifying and determining the roles of genes, gene mutations and proteins. The CombiMatrix group's technology has a wide range of potential applications in the areas of genomics, proteomics, biosensors, drug discovery, drug development, diagnostics, combinatorial chemistry, material sciences and nanotechnology.

Acacia Research-Acacia Technologies (Nasdaq:[ACTG - News](#)) and Acacia Research-CombiMatrix (Nasdaq:[CBMX - News](#)) are both classes of common stock issued by Acacia Research Corporation and are intended to reflect the performance of the respective operating groups and are not issued by the operating groups.
